Programming Basics

Learn the basics of programming with Python or R.
I learned from:
University Of
Toronto - Coursera

A boost that is more fundamental (optional): than the fundamentals (optional) (course and the fundamental than the fundamental (optional) (course and the fundamental (optional)).

**Foundations** 

Data Science Big Picture Elite Data Science
Primer (Process Overview)
ML Algorithms Overview
Python Quickstart
Pandas Data Wrangling
Seaborn Data Visualization
Scikit-Learn Machine Learning
Feature Engineering best practices
Machine Learning Iteration

Once you know the

science process.

fundamentals of programming

introduce yourself to the data

and data analysis, is time to

Data Analysis
Basics

Learn basic theory and practice of data analysis. I learned from: The University Of Texas - edX
